

East Fork Road (SR 1107)

from US 178 to Walnut Hollow Road (SR 1103)

Local ID: **TRAN0032-H**Purpose: **Facility Deficiencies**Improvement: **Improve Existing****Identified Need**

East Fork Road (SR 1107) has no paved shoulder and lane widths of 8 feet.

Recommendation

Improve alignment, lane widths, and shoulders to current design standards, including 5 foot paved shoulders.

None

TYPICAL SECTION No. 2C**2 LANE UNDIVIDED WITH PAVED SHOULDERS**

POSTED SPEED 25-35 MPH

Project OverviewLinkage to Other Plans

According to the 2013 Blue Ridge Bike Plan, this facility is part of the "Priority County Corridor" connecting Brevard, Rosman, and Pisgah Forest. According to the 2025 Transylvania County Comprehensive Plan, this facility is part of the "Regional On-Road Bicycle Routes" identified in that plan. It is classified as a minor collector on the Federal Functional Classification System.

Multi-Modal Considerations

Transylvania County Transit, under the name "Transylvania in Motion" operates a fixed route as well as demand response system within the county. The deviated-fixed route does not reach this facility; however, it is within the demand-response area. The Transylvania County Bicycle Plan (2019) recommends a paved shoulders along this facility.

Goals & Objectives Survey

The citizens of Transylvania County responded to a public survey in early 2019 with a great deal of support for new greenways, sidewalks, and multi-use paths. When asked for their top three most important project types, these categories ranked first, third and fifth, out of a dozen choices. Rounding out the top five were maintenance and safety projects at second and fourth respectfully. When asked to rank transportation goals, the respondents gave two, preservation of the natural beauty and community character and increasing the number transportation mode choices, substantial net positive scores; improved connectivity, and economic development about neutral; and improved travel time was poorly scored, receiving over 50% of the lowest rank.

Natural & Human Environmental Context

According to LHI Guild Analysis, this project intersects multiple guilds of the Mesic Hardwood, Mixed Forest, Woodland, and Barrens variety. These are predominantly

A-ranked resources with the balance being B-ranked. The project is in proximity of one cemetery.
